

To Whom It May Concern;

I was recently informed of your possible plans to change the current broadcasting service. As a local listener of the K-LOVE radio station, this is very concerning. I have supported the K-LOVE station for the past five years because I feel that it is the best interest of my community to keep this radio station on the air. They provide a wholesome alternative the raunchy music that many of the stations in our area have chosen to play. Without this radio station, my children will have to listen solely to cds and cassette tapes because I cannot trust other stations to not broadcast commercial for condoms and std, erectile dysfunction, or give references to the hosts' personal cohabitation. While I believe in a person's right to listen to what they wish, this is not something that I choose to present to my family. As a mother of two children under the age of 12, I believe that if the K-LOVE radio station was displaced, our family would be deprived of listening to new music and current events in our area by being force to listen to "canned" music. I hope that your agency will reconsider its plan and choose to keep the braodcast system the way it is currently configured.

Sincerely,

Diane Conrad
